7. CATEGORIES

I. Film & TV - **NOTE - 2 hours to complete the look**

Theme: **The French Revolution**

Contestants are required to design and make-up a character from the French Revolutionary period from 1789 to 1799. This character can be male or female and suitable costume must be sourced.

Background

Arguably one of the most important events in human history, the French nation descended into turmoil for a decade. The Revolution overthrew the monarch, established a republic, experience violent periods of political unrest, and finally established a dictatorship under Napoleon Bonaparte. Inspired by liberal and radical ideas, the Revolution altered the course of modern history, triggered the global decline of absolute monarchies and replaced them with republics and liberal democracies.

Every French citizen, whether rich or poor, had their lives affected. King Louis XVI, Queen Marie Antoinette, their family and courtiers were thrown into prison, many aristocrats escaped in disguise into Europe or across the Channel to England, and violent mobs of peasants from both cities and countryside rampaged through the land.

Fashions for the rich before the Revolution were elaborate and opulent, and clothing and wig styles reflected this. Your character will be living during this time. Do your research well.

CRITERIA FOR THE MAKE-UP – time allowed 90 minutes for make-up **COMPULSORY MAKE-UP ELEMENTS:**

- Character Make-up
- A prosthetic piece such as nose, cheeks, black eye, etc.
- Wounds/bruises - Makeup FX that come from the colour palette not a piece
- Recent injuries
- Illness
- If female, the beauty has to be in accordance with the directive

OPTIONAL MAKE-UP ELEMENTS:

- Hand laid hair - beard, moustache, eyebrows
- Full postiche - moustache or beard on a lace

CRITERIA FOR THE HAIR – time allowed 30 minutes for hair

Hair to be styled or wig to be applied.

NOTES: This is to be treated like a proper Make-up Call on a movie or television set. At the end of the allotted time, the model will get into costume, just as they would in reality.

In this category, you'll be judged on your interpretation of theme, design inspiration and attention to detail. Wigs and hair are important, as well as the costume, but it's down to your skill and creativity that will win the day here.

Your accompanying Mood Board that you'll bring with you on the day will be a visual demonstration of your thought process and will illustrate your particular character and the make-up design you have chosen. You'll talk through your concept with our Head Judge.

2. Runway NOTE - 2 hours to complete the look

Theme: 20th Century British Fashion Designers

Take inspiration from iconic British fashion designers from the last century and create an homage to the one you love the most. Whether you're transported to the '50s by Hardy Amies or the '90s with Alexander McQueen, this category asks you to capture the essence of their work, combining styling, nails, hair and make-up. Remember that your finished look needs to work at a distance as well as close up.

Your accompanying Mood Board will storyboard your inspiration and vision. You'll be talking through this with the judges to walk them through your creation.

Both male and female models are permitted. Style your model to complete your look, with carefully sourced clothing and great looking hair to reflect your creation.

3. Real Beauty NOTE - 2 hours to complete the look with a break after 90 minutes for photography

Theme: Spring Wedding - 1 model, 2 looks, 3 hours, 4 key products

Section 1 – 90 minutes for daytime look

Section 2 – 30 minutes for evening look

Remember that the only prep you may do prior to the competition starting is nails. You must do your hair and make-up from beginning to end in the time allotted.

This category is about creating a look for real women, not a professional model, and is judged on your ability to bring out the subject's natural features, as well as application and technique. Style her to perfection from top to toe. Make sure you bring your Mood Board to show the inspiration for your work.

The theme this year allows you to showcase your transformation techniques and you are required to create two looks in the allotted time. Your first look is for daytime and you have 90 minutes for this, after which your model will be photographed and you will then transform the make-up to an evening version.

For the evening transformation, you are permitted to selected only 4 items to work with, apart from your brushes – 1 item hair (e.g. 1 pin, 1 grip, 1 decorative accessory, etc.) and 3 make-up items (e.g. lipstick, eyeliner, blush,

mascara, shadow, etc.). Please note that an eyeshadow colour is classed as one item, regardless of whether it is in a palette, quad, duo or single.

Any age of model is permitted over the age of 16 in Real Beauty. Create a flawless, age-appropriate look, selecting products that work for her skin tone, eye and face shape. Application is key to produce a flawless finish.

You'll be judged on your ability to bring out the potential of your subject, as well as your skills in application and technique. Bring with you a head and shoulders shot of your model as she normally looks. Before and after shots will be compared to gauge the full effect of the final look.

4. Body Painting NOTE - 5 hours to complete the look **Theme: Love is All Around - Student and Pro levels. Professor's Apprentice – NEW CATEGORY.**

Our Bodypainting category is once again judged by two of the UK's leading names - Jennie Roberts and Catriona Finlayson from Paintopia. With a nod to St Valentine, the theme is Love is All Around and we're looking for exceptional work, either brush and sponge or airbrush, combined with costume, headpiece and innovative use of props. Again an inspiration board is required to be presented.

For this the judges will be looking for interpretation of theme, application, uses of adornment to enhance work and technique. Disciplines allowed: airbrush, brush and sponge combined (you may use all or any these). Stencils are permitted, but must not be used for more than 25% of the overall design. Nude painting is prohibited and all models must wear suitable protective underwear and nipple covers.

Students and Pros will be judged separately, so make sure you enter yourself at the correct level.

Professor's Apprentice is a brand new category that pairs up experienced pros with newbie painters to create a mentored piece together. Do note that entry for this category closes at on 31st January to allow time for the pairs to plan their paint. As entries for each category will be capped at 10, get your registrations in early to ensure your place.

5. #InstaWarpaint Photographic Competition **Theme: Mesmerising Eyes**

The Warpaint Championships gives you the opportunity to showcase your original photographic images. With inspiration from the windows to the soul, use your imagination and creativity to produce cover-worthy shots.
